

# Healthy Credits Program for Underwriting

## “I’VE GOT A CLIENT...<sup>SM</sup>

...who is very healthy except in one area. Is there any way that underwriting will consider a one class improvement?

## WE’VE GOT SOLUTIONS

The Healthy Credits Program from the underwriters of American General Life Companies (American General) gives your clients the opportunity to qualify for the best underwriting class available.

Your client may qualify for one class Preferred upgrade or one Substandard class improvement if they meet 4 of the 16 reference points in our Healthy Credits program.\* The Healthy Credits factors which are considered when determining an underwriting improvement are below.

1	Normal stress EKG, thallium, stress echo, Sestamibi, MUGA, EBCT, or other perfusion or imaging test
2	Normal chest or abdominal CT scan
3	Hemoglobin A1C < 5.5
4	APS documented daily rigorous aerobic exercise and the physical measurements to substantiate
5	LDL below 100
6	BMI of 23-25
7	Untreated Blood Pressure 120/80 or better
8	Normal mammogram
9	Normal executive physicals at top tier clinics such as Mayo, Cleveland Clinic, Cooper Clinic etc.
10	Parents survived into their 80’s.
11	Normal Colonoscopy
12	NT Pro-BNP < 100
13	Normal CBC
14	Normal Spirometry
15	Normal Blood Chemistry Profile
16	Normal total cholesterol (200 or less) without medication

The underwriting process considers many factors when determining a client’s health and appropriate underwriting class. With a dedicated team of underwriting and actuarial specialists, the Healthy Credits Program is another reason that American General remains a competitive leader in the industry.
